India continues to strengthen its position as one of the world's leading destinations for long-term foreign investment, even as global capital flows remain uneven.

Global FDI inflows rose modestly to USD 1.62 trillion in 2025 (+6% yoy), with Asia retaining its position as the largest recipient region at USD 644 billion (+3% yoy). Against this backdrop, India recorded a record USD 95 billion in total FDI inflows during FY2025-2026, reflecting sustained investor confidence in the country's long-term growth prospects.

Investment inflows remained concentrated in high-value sectors, including computer software & hardware, services and manufacturing-related industries, underscoring India's ongoing transformation into a more technology-driven, globally competitive economy.
